

**Second Paper Topic**  
**Philosophy 175**  
**Winter, 2019**

Your paper should be a bit more than 3 pages in length. All claims about Kant's views must be documented using page references to the text (either page numbers in the translations or the marginal numbers). Be sure to give an account in your own words of all the relevant technical terminology from Kant.

The main text should be the *Critique of Pure Reason*, "Second Analogy" (A189/B232-A211/B256). See also the *Prolegomena*, §§26-30, (pp. 47-52, Ak 4:307-312).

What was Kant's argument for the claim that all changes that occur in nature are subject to the law of the connection of cause and effect?
